## Free write about weaknesses of Rhetorical Analysis

↳ One weakness that I feel to be especially present ~~to~~ when writing my tests is the fear that I was focusing ~~on~~ about the subjects of the lab reports rather than only the structure. Furthermore, I ~~was~~ ~~also~~ ~~felt~~ myself struggling in labeling the different main points each lab report makes and writing a whole essay on.

⊙ A weakness that I may do feel myself struggling to overcome is introducing and concluding the essays. I feel it the more delegating part of the essay so introduce a specific topic and then conclude it.
